- Git
- Agile Methodology

CAREER OBJECTIVE

I am an enthusiastic React Front-End Developer seeking an entry-level position to use my skills in coding, troubleshooting complex problems, and assisting in the timely completion of projects. With passion for both personal growth and for software development, I attended a 500+ hour coding bootcamp to learn new languages while sharpening existing skills. After 7 months of studying I am ready to apply my passion for coding to a talented engineering team to develop quality solutions. I am continue studying to improve my profile towards a Fullstack MERN developer.

PROJECTS

Personal Portfolio | React Js

August 2022

- I built a full React js Personal Portfolio to show the projects I have carried out so far.
- <https://patricioportfolio.netlify.app/>

Guitars Ecommerce | React Js

August 2022 - Current

- SPA ecommerce app where it contains; Components, Promises, API'S, Personal Hooks, Jest, Routes and useContext.

Restaurant Menu | HTML - CSS - Js

June 2022 - July 2022

- I built a dynamic menu for the user in which you can order from the same website.
- The main javascript functions that it has is DOM handling, events, Storage and JSON, promises and fetch.

Export Company Website | HTML - CSS - Sass - Bootstrap

April 2022 - May 2022

- I built a fully responsive website for an international company who's main activity is to export meat.
- This website has 5 pages where you can navigate without any problem

EXPERIENCE

Intern/Junior Frontend Developer - Remote

Brainnest, Bremen, Germany. | August 2022 - September 2022

Intensive Front-End program where we resolve task and improve websites experience for users. The main work was to Design, build, test, deploy and maintain users pages. We also use different technologies and tools to support the delivery of high-quality software.
