SKILLS

- HTML
- CSS
- JavaScript
- React Js
- Sass
- Boostrap
- Git
- Agile Methodology

LANGUAGES

- Spanish: Native
- English: Advance

CARERR OBJETIVE

I am an enthusiastic Front-End Developer seeking an entry-level position to use my skills in coding, troubleshooting complex problems, and assisting in the timely completion of projects. With passion for both personal growth and for software development, I attended a 500+ hour coding bootcamp to learn new languages while sharpening existing skills. After 7 months of studying I am ready to apply my passion for coding to a talented engineering team to develop quality solutions.

PROJECTS

Personal Portfolio | React Js
August 2022
- I built a full React js Personal Portfolio to show the projects I have carried out so far.
- I customize JavasCript functions to apply for animated letters.

Guitars Ecommerce | React Js
August 2022 - Current
- I started working on a new project in which i will create a ecommerce using React Js as main language

Restaurant Menu | HTML - CSS - Js
June 2022 - July 2022
- I built a dynamic menu for the user in which you can order from the same website.
- The main javascript functions that it has is DOM handling, events, Storage and JSON, promises and fetch.

Export Company Website | HTML - CSS - Sass - Boostrap
April 2022 - May 2022
- I built a fully responsive website for an international company who's main activity is to export meat.
- This website has 5 pages where you can navigate without any problem
